Quetta, Pakistan | +923310329489 | asfandyar273263@gmail.com | https://www.linkedin.com/in/asfandyar100/

Summary

Motivated and detail-oriented computer science student with a strong foundation in web development and programming. Experienced in building responsive and user-friendly websites, with a focus on clean design and efficient solutions. Skilled in version control and collaborative development practices. Passionate about learning new technologies and seeking an internship opportunity to apply and grow technical expertise in a professional environment.

Education

Tameer-e-Nau Public College Quetta — **April 2019 - August 2021**
Pre-Engineering — Science
Marks: 837

Buitems — **October 2022 - Present**
Computer Science — Bachelor of Science
GPA : 3.72

Projects

AI Chatbot

- Developed a basic AI chatbot to respond to user inputs using decision-making logic in Python.
- Focused on implementing decision trees and basic natural language processing techniques.
- Gained foundational knowledge in AI programming and problem-solving.

URL Shortener

- Built a responsive URL Shortener app with React and Tailwind, allowing users to generate short links instantly through API integration.
- Implemented API handling and state management for real-time link creation, validation, and display.
- Applied version control with Git and deployed the project to showcase a production-ready frontend application.
